GTA IV: The Ballad of Gay Tony The Ballad of Gay Tony Grand Theft Auto IV Episodes From Liberty City FREE. 1. Field of the Invention This invention relates to a process and apparatus for the production of cellulose pulp of high quality. 2. Description of the Prior Art The production of pulp which is to be used for the production of paper pulp as well as other purposes is normally accomplished by three different processes, which may be in combination. The first process is the conventional process, which includes a bleaching step to remove non-cellulose impurities, and then processing the pulp in conventional manner to produce paper pulp. The second process comprises the Kraft process in which wood chips or other suitable feedstock are digested in an alkaline medium of sodium carbonate or sodium sulphide to remove non-cellulose impurities. The resulting liquid is diluted to a pulp consistency of about 5-10%, and the fibre slurry is subjected to filtration under pressure, optionally, in a baghouse, to remove undissolved particles of organic origin. The Kraft pulp produced in this manner is suitable for the production of paper pulp, but not having the properties required for the production of high quality fibreboard. The third process, which is the object of this invention, involves mechanically producing pulp from wood

chips, in which the wood chips are treated in a pulp digester with a kraft pulp-forming liquor in the presence of a suitable oxidizing agent. Typically this is sulphur dioxide, which is converted to sulphur trioxide in the process. The liquid which is separated from the pulp in the digester is treated in a recirculation loop and is diluted to the consistency of the pulp to be produced and then treated in a press, whose operation is controlled in a manner which permits the production of fibre slurry, whose solid content can be as high as 90% on a dry basis. The fibre slurry is purified in a separation stage and then filtered to remove all undissolved wood. This
